Would you like your organization to become data-driven, but don't know where and how to start? Then get inspired during the Wave5 Studio Session! Using various techniques, we will take a look at all the possible ways to use data and technology within your organization. The Wave5 Studio Session will be the starting point for the data driven work of the future.

During the session we will use all our in-house expertise to help your organization. We will focus on a number of fixed themes and techniques pertaining to your questions, challenges, and goals.

The Wave5 Studio Session is not just meant for our existing customers, but designed for anyone who would like to use our expertise to move their organization forward. During a six-hour

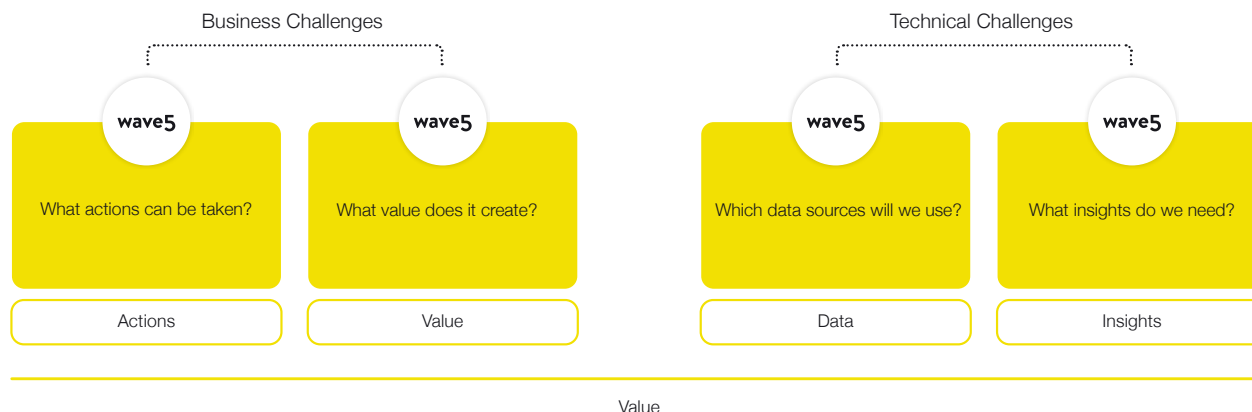

Figure 1: The Wave5 Studio Session

workshop we focus on a variety of topics such as Data Analytics, Data in Context, Data & AI, and Great Conversation. To do so, we use the latest Microsoft technology.

This way we make sure that you will start your journey towards a data driven organization well prepared and with renewed inspiration. By zooming in on the specifics of your organization the Wave5 Studio Session allows us to deliver customized solutions that fit your exact needs. You will get insights and solutions that will help you define new projects aimed at a data driven future.

So are you your organization's CIO, CTO, CDO, Business-, or IT-manager? Then the Wave5 Studio Session can give you the answers to questions currently at play in the field of data driven work. It might also be the start of a relationship between you and Wave5, valuable to the both of us. This way you will make your organization robust and up to date, more than ready for all challenges to come.
