SOLUTION ARCHITECT

Medior Level - Amsterdam - 40 hours

Wave5 is a forward-thinking tech startup with offices in Amsterdam and Ho Chi Minh City, Vietnam. We help our customers with digital work, data-driven work and with setting up and supervising tech teams. With our help, the digital transformation is initiated, and they can start working data-driven. We do this by fusing data, AI and software into smart applications.

This is done through projects or with platform teams. To achieve the best results, we use both the latest Microsoft technologies and our own IP.

We carry out our mission based on four important values: growth, craftsmanship, fun and independence. We believe that every employee should have input to maintain those values. That is why you are encouraged to share your ideas and points for improvement as much as possible.

At Wave5

you will be working for a modern, cutting-edge organization at the forefront of Microsoft innovation and technologies. We strive for excellence and encourage you to grow along with us, in a business sense, but in a personal sense as well.

As Solution Architect you will be an important part of our team. Your Architecture Design skills will be put to good use to work on the success of Wave5 as a future oriented organization. You are responsible for the successful design and development of our AI Applications. For this, you will use the

newest innovations and technologies that the Microsoft Platform has to offer. At Wave5 you will get a lot of freedom, and responsibility to use your skills to make sure our clients are more than satisfied.

Besides the knowledge and skills you already have, Wave5 offers you a lot of room to keep on growing. You will learn from our experts, on the job, and extra training. This way, you will keep on improving, and your knowledge will be continuously sharpened.

What we ask

- The drive and curiosity to keep on learning and growing
- A proactive and self-organizing mindset
- You are collegial and work well in teams
- An attitude focused on our clients
- A passion for technology and the development of Data & AI solutions
- Experience with .NET, C#, TypeScript,

    Python
- Experience with Azure DevOps
- A proven record of building applications
- Experience with development in Azure Cognitive Services
- It is helpful to have a Scrum Master
- certificate and to have started or finished an Azure certificate

wave5

"Be part of a young organisation with a club of driven people and a great place to grow!"

What we offer

- A culture of growth based on safety and trust in wich we are constantly learning and researching, and focus on each other's knowledge is emphasized
- Exciting and challenging assignments and projects for which we will use the newest technologies
- A nice salary supplemented with:
- A personal budget that can be used for pension or other matters

- An educational budget that can be used for an education of your choice
- A mobility budget that can be used for a car, bicycle, public transport subscription or a combination of the above
- Laptop and phone
- The freedom to choose from where and how you want to work
- Digital nomads: it is even possible to work from abroad
